Description

Wireless Doorbell Push - Expanding Efficient Communication

The **Wireless Doorbell Push** is a smart solution to improve communication in your home or workplace. Designed to complement the functionality of **Reference 104000001**, this push button offers an efficient way to announce the presence of visitors or the need for attention.

Additional Technical Characteristics:

- **Reference:** 104000006
- **Description:** Push button for wireless doorbell
- **Frequency:** 433.92Hz
- **Cable Section:** 2x0.75mm
- **Decibels:** 85db
- **Colour:** White
- **IP Protection:** IP44 (Outdoor use)
- **Batteries :** 1x3V (CR2032) Included

The Wireless Doorbell Push brings convenience and versatility to your existing doorbell system. Operating on the 433.92Hz frequency, it ensures effective and reliable communication with the corresponding receiver. With a sound level of 85 decibels, it provides a clear and audible warning, ensuring signals don't go unnoticed.

The white design gives it a modern, understated look, while its IP44 rating makes it makes it resistant to weather conditions, allowing its installation outdoors. Thanks to its 2x0.75mm cable section, its connection is safe and stable, guaranteeing a reliable signal transmission.

The inclusion of 1x3V (CR2032) batteries facilitates the installation and start-up of the push button. Ready to use right out of the box, there's no need to worry about hunting for extra batteries. Whether for homes, offices, or anywhere that requires efficient communication, the Wireless Doorbell Push is a valuable addition that improves convenience and accessibility in everyday communication.
