Description

The Wolfcraft Marking and Alignment Template 71 and 91mm (5975000) is an essential tool for the quick and precise installation of socket box inserts and switches on dry sites. With a built-in spirit level, this jig ensures perfect alignment for accurately marking drill position as well as aligning installation boxes and inserts. With 71 and 91mm markings, this template makes it easy to transfer distances between two installation boxes, as well as between socket boxes and TV or network boxes. In addition, it includes a step-by-step instruction manual with illustrations for correct and safe use of the template.

- Template to mark and align measurements of 71 and 91mm
- Level bubble for precise alignment
- 71 and 91mm markings to transfer distances between installation boxes
- Includes step-by-step instruction manual with illustrations
- Ideal for the installation of socket box inserts and switches in dry construction
