Description

If you are looking for a resistant solution to protect the mechanisms of the Simon 27 series in environments with water, dust and outdoor areas, the gray Simon Aqua frame for 2-element horizontal embedding boxes is an excellent option. This frame is part of the Simon 44 Aqua series, which offers solutions for extreme environments and is designed as a waterproof enclosure that protects the Simon 27 series mechanisms from water and dust, thus offering you a wide range of functions.

The frame has 2 elements and can be placed in rooms with temperatures between 5 and 40°C, although it is capable of withstanding extreme temperatures between -25 and 50°C. Made of high-quality thermoplastic, its dimensions are 104 x 171 mm and it must be installed horizontally.

The gray finish of the frame makes it a discreet solution that is easy to integrate into any environment.

In addition, its cleaning is simple, since you will only need to use a soft and dry cloth. It is important to avoid the use of abrasive cleaners and cloths that contain any type of chlorine in their formula, as they could damage it and affect its operation.

In short, the gray horizontal 2-gang frame for embedding boxes Simon Aqua is a resistant and practical solution to protect the mechanisms of the Simon 27 series in extreme environments. With its gray finish, durable plastic material, and easy cleaning, it's an ideal choice for any application. In addition, its compatibility with the mechanisms of the Simon 27 series make it a versatile and functional solution for any project.

Main technical characteristics:

- Simon 44 Aqua Series
- Grey finish
- Resistant plastic material
- Dimensions: 104 x 171 mm
- Compatibility with Simon 27 mechanisms

Specifications

Colour	White
EAN	8421053298671
Manufacturer	Simon
Type of installation	Estanco
Piece type	Frames
Series	Simon 44 AQUA
