SIMON 75 claw pack for new S75 mechanisms (10u)

Brand: SIMON

Reference: SIMON 7500999-039

Package of 10 packs of two units of optional additional claws (20 loose units), necessary in the event that the registration box does not include screws.

Simon is one of the leading distributors of mechanisms electrical devices of all kinds, always providing an avant-garde vision and a constant search for new functionalities. Simon intends, at all times, to make everyone's life easier and more comfortable.

With this set of **Simon** clamps for embedding, they are needed in the event that you own electrical register box does not include the screws and for boxes that are not universal. Installation is really simple, since they were designed to be used and installed with different Simon mechanisms, which is a great advantage. Part resistant to adverse conditions and maximum durability over many years. Like any Simon product.
