Description

3 Articulated Claws Extractor 8 30-210

The 3 Articulated Claws Extractor is a robust and versatile tool designed for the efficient extraction of bearings. Manufactured from high carbon steel, this extractor features reversible jaws that allow extraction from both the outside and inside, providing greater flexibility of use. With a load capacity of 2.5 to 3.75 tons, this extractor is capable of handling heavy duty jobs with ease. Its 8" length and 30-210 opening range make it suitable for a variety of bearing sizes. Additionally, its compact and ergonomic design makes it easy to handle and store. In short, the 3 Articulated Claw Extractor 8 30-210 is a must-have tool for any professional who needs to perform bearing extractions safely and efficiently.

- **Length:** 8"
- **A min-max:** 30-210
- **H max:** 180
