Description

200 mm Interior Spring Compass

The 200 mm spring compass for interior measurements is a versatile and precise tool for taking measurements on the surface of any material and for draw arcs of circumference. It has a quick adjustment nut on one of its sides to facilitate its use. One of the points is used as the center of the circumference, while the other is responsible for marking the desired arc. Its black and silver design gives it an elegant and professional look.
