Description

250 mm External Spring Compass

The 250 mm External Spring Compass is an ideal tool for making precise external measurements. It has a quick adjustment nut that facilitates its use, allowing you to take measurements on the surface of any material and draw circumference arcs easily. One of the points is used as the center of the circumference, while the other is responsible for marking the desired arc. Its black and silver design gives it an elegant and professional look.

- Spring compass for exterior measurements
- Quick adjustment nut
- Ideal to take measurements and draw circumference arcs
- Black and silver color
