

Product sheet

Universal Extractor 2 Claws 60-200

Brand: COFAN

Reference: COF 09516043

Sliding type or T type bearing extractor with 2 claws and double position. It is made of high quality chrome vanadium hardened steel. This material optimally protects it against corrosion and guarantees a longer service life. We have different measures for all types of needs. This product can be used to remove gears, ball bearings, pulleys, wheels or similar parts, as well as outer rings or drilling bushings. The extractor is reversible and can be used as both an external and internal extractor.

- Length: 4
- A min-max: 60-200
- H max: 150

Description

Universal 2 Claw Extractor 60-200

The Universal 2 Claw Extractor 60-200 is a versatile and resistant tool, ideal for removing a variety of parts such as gears, bearings of balls, pulleys and more. Manufactured from high-quality hardened chrome vanadium steel, this extractor offers optimal corrosion protection and long life. With two claws and double position, it can be used for both external and internal extraction work. Its reversible design makes it even more practical and functional.

- **Length:** 4
- **A min-max:** 60-200
- **H max:** 150

Specifications

High	24,00
Width	5,00
EAN	8445187100235
Weight (kg)	3,1
Depth	24,00
