Product sheet

Universal Extractor 2 Claws 80-250

Brand: COFAN

Reference: COF 09516044

Sliding type or T type bearing extractor with 2 claws and double position. It is made of high quality chrome vanadium hardened steel. This material optimally protects it against corrosion and guarantees a longer service life. We have different measures for all types of needs. This product can be used to remove gears, ball bearings, pulleys, wheels or similar parts, as well as outer rings or drilling bushings. The extractor is reversible and can be used as both an external and internal extractor.

- Length: 5
- A min-max: 80-250
- H max: 200

Description

Universal 2 Claw Extractor 80-250

The Universal 2 Claw Extractor 80-250 is a versatile and resistant tool, ideal for removing a variety of parts such as gears, bearings of balls, pulleys and more. Manufactured from high-quality hardened chrome vanadium steel, this extractor offers optimal corrosion protection and long life. With its dual-position design, it can be used as both an external and internal extractor, providing greater flexibility of use. Its 5 inch length and 80-250mm adjustability make it suitable for a wide range of applications. In addition, its maximum extraction capacity of 200 mm ensures efficient performance in various maintenance and repair tasks.

- **Length:** 5 inches
- **A min-max:** 80-250 mm
- **H max:** 200 mm

Specifications

High	34,00
Width	6,00
EAN	8445187100242
Weight (kg)	6,5
Depth	34,00
