Monolayer Scraper 250 x 150mm

Brand: COFAN

Reference: COF 09517150

High quality metal scraper with rectangular shape for single layer. The grip is made of fiberglass, it is very comfortable, light, ergonomic and non-slip. It has spikes that are evenly distributed over the entire surface of the single-layer mortar scraper blade. Its closed handle makes it symmetrical and, therefore, it is perfect to be used by both right- and left-handed users, as it is easy to manipulate and control. We recommend using it when it is almost dry, making circular movements, to normalize the thickness of the mortar to the desired height and hide the different panels made.

- Measurements [mm]: 250 x 150
