Product sheet

Combination Wrench 22mm

Brand: COFAN

Reference: COF 09602017

Polished combination wrenches, designed to tighten/loosen nuts or hexagonal head screws. The profile with the ratchet mechanism maximizes the contact area with the nut and allows for quick tightening, since the wrench does not have to be replaced each turn. Fixed profile allows for better nut access and tight wear. The 72 teeth of the ratchet profile allow the wrench to be operated with a 5-degree ratchet angle, making it easier to work in confined areas due to the small space required. This also allows you to increase productivity without wasting time repositioning the key. Chrome vanadium steel provides high resistance.

- Sw measurement: 22

Description

22mm Combination Wrench

Polished combination wrenches, ideal for tightening/loosening hexagonal head nuts or screws. The profile with a ratchet mechanism maximizes the contact area with the nut, allowing quick tightening without the need to reposition the wrench with each turn. The fixed profile makes it easy to access the nut and offers a tight fit. With 72 teeth in the ratchet profile, the wrench can be operated with a 5-degree ratchet angle, making it easier to work in tight spaces. Made of chrome vanadium steel for high resistance.

- SW measurement: 22mm
- Profile with ratchet mechanism for quick tightening
- Fixed profile for better access to the nut
- 72 teeth in the ratchet profile to operate with a 5 degree angle
- Made of chrome vanadium steel for high resistance

Specifications

High	1,00
Width	5,00
EAN	8445187070323
Weight (kg)	0,214
Depth	26,00
