Description

Corona HSS Electromagnetic Drill 28ø L30mm

The Corona HSS electromagnetic drill is a high quality and precision tool, ideal for drilling hard and resistant materials. With a diameter of 28 mm and a length of 30 mm, this drill ensures optimal performance in various industrial applications. Its electromagnetic design allows for a secure and stable hold during the drilling process, ensuring precise and consistent results. In addition, its high speed steel (HSS) construction guarantees long life and efficient cutting. With the Corona HSS electromagnetic drill, you can make clean and precise holes in steel, iron and other metallic materials with ease and precision.

- **Length [mm]:** 30
- **Diameter [mm]:** 28

Specifications

High	0,10
Width	0,10
EAN	8445187241556
Weight (kg)	0,001
Depth	0,10
