Description

Corona HSS Electromagnetic Drill 29ø L50mm

The Corona HSS electromagnetic drill is a high quality and precision tool for drilling metal materials quickly and efficiently. With a length of 50mm and a diameter of 29mm, this drill is ideal for making large holes with ease. Its electromagnetic design guarantees a safe and stable hold during the drilling process, avoiding slipping or unwanted movements. The tungsten carbide tip ensures long life and a clean, precise cut every time. Additionally, its high-speed steel (HSS) construction provides exceptional wear resistance, allowing for extended use without losing its effectiveness. This drill is an essential tool for professionals looking for quality results in their drilling work.
