Description

Corona HSS Electromagnetic Drill 33Ø L50mm

The Corona HSS electromagnetic drill is a high quality and performance tool for drilling metal materials precisely and efficiently. With a length of 50 mm and a diameter of 33 mm, this drill is ideal for jobs that require medium-sized holes. Its electromagnetic design guarantees a safe and stable hold during operation, allowing precise and vibration-free work. The tungsten carbide tip ensures long life and clean cutting in a variety of materials. Additionally, its high-speed steel (HSS) construction provides excellent wear resistance and increased durability. This drill is an essential tool for professionals looking for quality results in their drilling projects.

- **Length [mm]:** 50
- **Diameter [mm]:** 33
