Description

Bimetallic Crown - 21 mm

- Measurement: 21 mm
- Length [mm]: 40 mm

Bimetallic crowns with teeth in high-speed steel with 8% cobalt (M42). The length of all crowns is 40 mm. Ideal for applications in iron, steel, brass, bronze, aluminum, wood, among other materials. These crowns offer optimal performance and durability in cutting jobs in a variety of materials. Its bimetallic design guarantees greater resistance and precision in cutting, allowing high-quality work to be carried out efficiently. With a diameter of 21 mm, these crowns are versatile and adapt to different cutting needs in various materials. An essential tool for professionals looking for precise and effective results in their carpentry, metalworking and other DIY projects.

Specifications

High	4,00
Width	11,00
EAN	8445187077872
Weight (kg)	0,061
Depth	16,00
