Description

Spindle With Interchangeable Drill. 14-30

- Diameter [mm]: 14 - 30

Spindles with drill bits are ideal for the drill bit clamping system centering tool for bimetallic crowns. With a normal drill chuck anchor, this product offers an efficient and precise solution for your drilling needs. Its diameter range of 14 to 30 mm makes it versatile and suitable for a variety of applications. The quality of the materials used guarantees durability and resistance, which translates into optimal performance over time. In addition, its interchangeable design makes it easy to maintain and replace, ensuring a long useful life. Whether for professional or home use, the spindle with 14-30 interchangeable drill bit is a reliable tool that will help you perform your drilling tasks efficiently and accurately.

Specifications

High	3,00
