## Description

### Spindle With Interc Drill. 32-250

- Diameter [mm]: 32 - 250

The spindles with drill bits for the centering drill clamping system for Bimetallic crowns are ideal for anchoring normal drill chucks. With a diameter ranging from 32mm to 250mm, this product offers a wide range of possibilities for drilling jobs of different sizes. The quality of the materials used guarantees a long useful life and optimal performance with each use. Its ergonomic design makes it easier to handle and reduces user fatigue, allowing work to be carried out more efficiently and accurately. Whether for professional use in workshops or for DIY tasks at home, the spindle with interchangeable drill bit is a must-have tool for anyone who needs to drill with precision and reliability.
