Description

Titanium Step Drill Bit - Tal: 6-30

The HSS Countersink Step Titanium Drill Bit is a high quality tool designed to drill materials with precision and efficiency. Made of ground high-speed steel, this drill bit has two stepped cuts that facilitate drilling in different diameters. Its titanium coating provides greater resistance to wear and a longer useful life.

- **Drill range:** 6 - 30
- **Length [mm]:** 95

Specifications
