### Description

Fuchsia Fluorescent Construction Marking 500ml is a high quality construction marking spray paint, designed to be used on construction sites, buildings, roads, tunnels and in the mining sector. This product is available in a striking pink color that guarantees excellent visibility. The paint comes in a 500 ml container with a secure outlet valve for easy and precise application. The markings made with this paint are clearly visible for 6-9 months, which guarantees exceptional durability. Furthermore, this paint can be applied even in temperatures down to -20°C, making it ideal for various weather conditions. However, it is important to keep in mind that this product contains dangerous components, so the corresponding safety instructions must be followed.
