Description

Triple Ring for Chain 3 and 4 Branches 10-8mm.

- **Diameter [mm]:** 10-8
- **Max load [kg]:** 6,700

The Triple Ring for lifting chains with 3 or 4 branches is a piece made of G-80 steel, which guarantees its resistance and durability in heavy load applications. With a diameter of 10-8 mm, this ring offers a maximum load of 6,700 kg, making it ideal for use in industrial and construction environments where a high load capacity is required. Its triple design allows an equal distribution of the load in the different branches of the chain, ensuring safe and efficient lifting of heavy materials. This ring is an essential tool for any lifting operation that requires reliable and resistant equipment.

Specifications

High	3,00
Width	17,00
EAN	8445187172164
Weight (kg)	3,2
Depth	27,00
