Polypropylene jug 2000ml

Brand: COFAN

Reference: COF 31001076

Measuring jug suitable for industrial and automotive applications. Made of polypropylene, transparent and highly resistant, with exceptional clarity. It has a strong and resistant handle with ergonomic grip for more comfortable handling. Its design provides a graduation in liters and ounces. Thanks to its manufacture of high quality materials that allow greater resistance to acids, bases and chemicals. Can be sterilized up to 121°C (250°F). This jug can be safely used in a microwave without fear of warping. Available with different capacities.

- Capacity: 2000 ml
