Description

12 x 1.5 plug for metal fittings

This threaded cap is ideal for use in metal fittings, with threads ranging from M-10 to M-22. With a 12 x 1.5 thread and a height of 17 mm, this plug ensures a secure and airtight fit in your application. Made from high quality materials, this plug is strong and durable, making it perfect for use in industrial and commercial environments. Its threaded design makes it easy to install and remove, making it a convenient and practical option for your sealing needs. Whether for use in machinery, pipelines or any other application, this threaded plug is a reliable and effective solution to keep your systems running without leaks or problems.
