Description

Intermediate elbow t5/3, T4/2.7 intermediate 90° elbow metal fitting

This product is an intermediate elbow manufactured with a metal fitting that allows an angled connection 90 degrees. It is ideal to be used in piping systems where a change of direction is required without losing efficiency in the flow of liquids or gases. Its compact and resistant design guarantees a long useful life and optimal performance in various industrial applications.

- Model: T5/3 intermediate elbow
- Intermediate 90° elbow metal fitting T4/2.7
- Diameter of tube 1: 5/3
- Diameter of tube 2: 5/3
- Material: Metal
- Connection angle: 90 degrees
- Recommended use: Industrial piping systems
- Resistant to corrosion and high temperatures
- Ensures efficient and continuous flow
- Easy installation and maintenance

Specifications

High	2,50
