Description

Product description:

The T6/4 intermediate elbow and the T4/2.7 intermediate 90º elbow metal fitting are essential components for piping systems that require precise connections and safe. These products are designed to ensure efficient flow of liquids or gases, maintaining the integrity of the installation. Their metal construction ensures durability and corrosion resistance, making them ideal for industrial or commercial applications. Featuring 6/4 Tube 1 and 6/4 Tube 2, these elbows are compatible with a variety of pipe sizes, making them a versatile solution for different projects. Its 90-degree elbow design allows for effective right-angle connections, optimizing space and facilitating installation. In short, these intermediate elbows are the perfect choice to ensure optimal performance in piping systems.

Specifications

High	3,00
Width	3,00
EAN	8445187165135
Weight (kg)	0,023
Depth	3,00
