Solar Automatic Welding Screen - Protection and Optimal Vision

Brand: WOLFPACK LINEA PROFESIONAL

Reference: AFT 15040053

The **Solar Automatic Welding Screen** is the perfect choice to guarantee your safety and comfort while working on welding processes. This advanced screen protects your eyes from dangerous radiation and provides a clear field of vision.

Main technical features:

-

Comprehensive Protection: This welding shield protects against irradiation generated during welding and offers adjustable protection levels from 9 to 13.

-

Adjustable Sensitivity: It has of a sensitivity adjustment that automatically darkens the protective cassette when detecting the electric arc, avoiding glare.

-

UV and IR protection: Offers permanent protection against ultraviolet (UV) and infrared (IR) irradiation, even in clear mode.

-

Wide Field of Vision: With a field of view of 42 x 92 mm, you will have a clear view of your work without sacrificing safety.

-

Fast Darkening: Darkening occurs in just 0.2 ms, which guarantees instant protection when turning on the welding arc.

-

Variable Dimming Control: You can adjust the dimming level according to your needs , with dark shades from DIN 9 to 13.

-

Solar Power: Powered by solar cells for sustainable performance and requires no batteries.

-

Light Weight: At only 480 grams, this screen is comfortable to wear for long periods of work.

Description

The Solar Automatic Welding Screen is an essential element in any welding workshop. Offering a combination of comprehensive protection and comfort, this advanced screen suits the needs of professional welders and DIY enthusiasts. One of the key features of this screen is its ability to provide comprehensive protection against the irradiations generated during the welding processes. With adjustable protection levels from 9 to 13, you can customize the screen depending on the intensity of the welding, ensuring your eyes are protected at all times. Adjustable sensitivity is another important feature. When the arc is activated, the protective cassette automatically darkens, preventing glare and ensuring a clear view of the weld. This not only improves comfort, but also increases workplace safety. This welding helmet also offers continuous protection against ultraviolet (UV) and infrared (IR) irradiation, even when it is in clear mode. This means your eyes will be permanently protected, which is essential for long-term eye health. The 42 x 92 mm field of view provides a clear, wide view of your work, giving you a clear, wide view of your work, which facilitates precision in welding. Plus, fast dimming in just 0.2ms ensures you're protected the moment the welding arc ignites. Variable dimming control allows you to adjust the dimming level to your preference, with dark shades ranging from DIN 9 to DIN 13. This flexibility is especially useful when working on different types of welding. The Solar Automatic Welding Screen is powered by solar energy, which means you don't need to worry about changing batteries. It is a sustainable and economical solution for your eye protection needs.

Specifications

High	25
Width	24
EAN	8435450455292
