Description

The **Professional 2-Hand Riveter with Shank Holder** is an essential tool for any professional who requires solid and reliable joints in their work. With a length of 320 mm, this riveter is designed to offer exceptional performance and comfort during operation.

One of the standout features of this riveter is its ergonomic handles, which fit comfortably in your hands, reducing fatigue during prolonged use. This ensures that you can perform riveting jobs efficiently and accurately without sacrificing comfort.

This riveter adapts to a variety of applications thanks to the 5 included interchangeable heads. These heads allow you to work with rivets of different sizes, which increases the versatility of the tool. From small 2.4mm rivets to larger 6.4mm diameter rivets, this tool can handle a wide range of projects.

The riveting process becomes quick and efficient with this tool. Simply select the appropriate rivet head,

place the rivet in the shank holder, insert the rivet into the material and use the riveter to complete the joint. It is an effective way to join materials safely and lastingly.

In summary, the **Professional 2-Hand Riveter with Shank Holder** is a versatile, ergonomic and reliable tool that facilitates riveting work in a variety of applications. Whether you work in the construction industry, carpentry, or any other field that requires solid joints, this riveter will be a valuable addition to your tool set
