Description

The Standard Series 4-Outlet Multiple Base in Black is a powerful and convenient solution for your electrical connectivity needs. Designed with a focus on convenience and safety, this multi-dock offers a number of standout features.

With four outlets available, this multi-dock allows you to connect multiple electronic devices at the same time, making it ideal for spaces where multiple electrical connectivity is required, such as offices, living

rooms or bedrooms. Its maximum power of 3680W ensures that you can power high-demand devices without problems.

The power cable is a generous 3 meters long, providing flexibility in the placement of the multi-base and allowing you to reach to outlets that might be further away. The type of cable used is H05VV-F with a section of 3x1.5mm, which guarantees efficient power transmission.

This multi-base is equipped with child protection, which prevents children from or any foreign object can access the outlets, providing a safe environment in the home or office.

Although this power strip does not have a built-in switch, its ease of use and its ability to power multiple devices makes it make it a practical choice.

The black design adds a touch of style and sophistication to your space, making it an aesthetic as well as functional choice.
