Description

The Standard Series 4-Outlet Multiple Base with Switch in Black is a powerful and convenient solution for your electrical connectivity needs. Designed with a focus on convenience and safety, this multi-dock offers a number of standout features.

With four outlets available, this multi-dock allows you to connect multiple electronic devices at the same

time, making it ideal for spaces where multiple electrical connectivity is required, such as offices, living rooms or bedrooms. Its maximum power of 3680W ensures that you can power high-demand devices without problems.

The power cable is a generous 3 meters long, providing flexibility in the placement of the multi-base and allowing you to reach to outlets that might be further away. The type of cable used is H05VV-F with a section of 3x1.5mm, which guarantees efficient power transmission.

This multi-base is equipped with a built-in switch that allows you to easily turn it on or off. all connected devices, making it easy to save energy and manage your electronic devices conveniently.

In addition, it has child protection, which prevents children or any foreign object from accessing to outlets, providing a safe environment in the home or office.

The black design adds a touch of style and sophistication to your space, making it an aesthetic as well as functional choice.
