Sumbe LED wall light round 7W 3000/4000/6000K Anthracite gray

Brand: GSC

Reference: GSC 200205075

The Sumbe Wall Washer in its round version is a versatile and modern lighting solution with a power of 7W. Its anthracite design and its ability to regulate color temperature allow you to create cozy and personalized environments.

This wall washer emits a uniform light with an adjustable opening angle of 0-120°, which makes it suitable for highlighting decorative elements, illuminating hallways or enhancing the architecture of your spaces.

The color temperature regulation capacity allows you to choose between three options: 3000K for a warm and cozy light, 4000K for a neutral and versatile light, and 6000K for a bright, focused light.

The Sumbe Wall Washer is designed to withstand outdoor conditions with an IP54 rating, which protects it against dust and splashes of water. Its aluminum and glass construction guarantees durability and a long useful life.

Description

The 7W Sumbe Round Wall Washer is an outstanding option to illuminate your spaces with style and versatility. Its round design in anthracite makes it an attractive and modern piece that can fit perfectly into a variety of environments.

One of the outstanding features of this swimsuit is its ability to regulate color temperature. With three options available, you can customize the lighting to your needs and preferences. The color temperature of 3000K offers a warm and welcoming light, ideal for creating a relaxing atmosphere. If you are looking for a more neutral and versatile light, the 4000K option is perfect for work spaces or common areas. Finally, the 6000K color temperature provides bright, focused light, ideal for specific tasks or highlight lighting.

This wall washer emits uniform light with an adjustable opening angle of 0-120°. This means you can direct light exactly where you need it, whether to highlight decorative elements, illuminate hallways or enhance the architecture of your spaces.

The robust construction of the Sumbe Wall Washer allows it to withstand outdoor conditions. thanks to its IP54 rating, which protects it against dust and splashes of water. Its aluminum and glass material guarantees durability and a long lifespan, which means that you will be able to enjoy quality lighting for a long time.

As for installation, it is recommended to turn off the electrical power and allow Let the lamp cool before making any replacement. Make sure all cables are properly connected before turning on the lamp for safe and efficient operation.
