Electric meter

Brand: GSC

Reference: GSC 502065006

The 3680W Energy Consumption Meter is an essential tool to control and manage your electricity consumption efficiently. With a maximum power of 3680W and a capacity of 16A, this meter allows you to monitor the energy use of your appliances. Its LCD screen shows accurate readings, with a minimum displayed reading of 0.5W and minimum displayed power of 0.01KWH. In addition, it has a reading accuracy of $\pm 2\%$. With intuitive buttons, you can easily access functions and calculate the electricity cost of your devices. Its white design and compact dimensions make it suitable for any environment.

Highlighted features:

- Maximum power of 3680W and capacity of 16A .
- High precision LCD screen.
- Consumption control and cost calculation function.
- Compact and elegant design in white.

Description

The 3680W Energy Consumption Meter is an essential tool for those who want to have precise control over their electrical expenditure. With a maximum power of 3680W and a capacity of 16A, this meter allows you to closely monitor the energy consumption of your appliances, helping you make informed decisions to save energy and reduce your electric bills.

The LCD screen of this meter shows accurate readings, with a minimum displayed reading of 0.5W and minimum displayed power of 0.01KWH. This means you can get detailed information about the power consumption of each device you connect to the meter. The reading accuracy of $\pm 2\%$ ensures that the data is reliable and accurate.

This energy consumption meter not only allows you to monitor energy usage, but also offers an additional function: calculating the cost of electricity for your appliances. With this feature, you can learn the economic impact of each device on your electricity bill, helping you identify where you can make adjustments to save money.

Meter operation is intuitive thanks to built-in buttons allowing you to easily access different functions and make adjustments as necessary. Its white design and compact dimensions make it suitable for any environment and easy to transport if you want to take it to different areas of your home.

Specifications

Rated current (A)	16
Colour	White
EAN	8433373075139
Manufacturer	GSC
Weight (kg)	0,122
Maximum power (W)	3680W
