

Product sheet

Oxide/Minium Converter For Iron 250 ML.

Brand: WOLFPACK LINEA PROFESIONAL

Reference: AFT 05464670

Oxide/Minium Converter For Iron 250 ML.

Capacity: 250 ML. It converts the rust into an organic metal adherent to the surface, forming a protective film that allows painting on the item. It is a water-based rust converter.

It is widely used for the protection of metal surfaces such as doors, gates, gutters, railings, car bodies, household appliances and generally for all iron products.

It must be applied with a brush, without diluting, directly on the rusty parts. Shake the product before use and pour it into a container. Do not pour unused product into the container.

Let it dry for at least 12/15 hours and then continue painting with any type of paint. The yield is approximately 12/15 m2 per liter.

We recommend that you do not use the product at temperatures below 5 ° C. The tools used in the application can be cleaned with water. For its application, the use of gloves, mask and protective glasses is recommended.
