Product sheet

# PAN Socket Tester Schukotest FI - Pancontrol

Brand: PANCONTROL

Reference: EDM 02139

**The Pancontrol PAN Schukotest FI Socket Tester is an essential tool to detect the presence of voltage in cables and sockets from 100 to 600V. With a red LED on the top and an acoustic signal, it is ideal for unipolar phase tests, detection of live cables, cable breaks and defective bulbs.**

- Power tester non-contact voltage
- Pan Control Pan Voltfinder magnetic detector
- AC voltage indicator from 100 to 600V
- Red LED and acoustic warning signal
- Unipolar phase test
- Detection of live cables
- Detection of cable breaks
- For defective bulbs

## Description

**The Pancontrol PAN Schukotest FI Socket Tester is an essential tool to detect the presence of voltage in cables and sockets safely and efficiently.**

- Non-contact voltage tester and magnetic detector
- Visual indicator with red LED on the top
- Acoustic signal that indicates the presence of AC voltage from 100 to 600v
- Ideal for unipolar phase testing, detection of live cables, cable breaks, defective bulbs, among others
- Easy to use and transport
- Works with batteries for greater convenience
- Safe and reliable for home and professional use
- Compact dimensions for easy handling
- Sturdy and durable construction for long life

- Perfect for electricians, maintenance technicians and DIY in general

## Specifications

| | |
|---|---|
| EAN | 9120037330022 |
| Manufacturer | PANCONTROL |
| Country of origin | Austria |
| Weight (kg) | 0, 101 |
