

## Product sheet

## 4-22W EDM Primer

Brand: EDM

Reference: EDM 04006

### 4-22W EDM starter

- Voltage: 220-240V
- Power: 4-22W
- Product high quality for EDM machinery
- Compatible with 220-240V systems
- Ensures safe and efficient start-up
- Facilitates the operation of electrical discharge machining equipment
- Essential component for the correct operation of EDM machinery
- Compact dimensions for easy installation
- Sturdy and durable construction
- Optimizes performance of industrial machinery

## Description

### 4-22W EDM starter

- **Voltage:** 220-240V
- **Power:** 4-22W
- **Application:** EDM
- **Description:** 4-22W EDM primer is an essential component for the operation of electrical discharge machining equipment. With a power of 4 to 22W, this starter guarantees safe and efficient starting in high voltage systems from 220 to 240V. Its robust and durable design makes it ideal for demanding industrial environments. Plus, its easy installation and compatibility with a variety of EDM machines make it a versatile choice for machining professionals. Rely on the 4-22W EDM Primer for optimal performance and long life in your electrical discharge machining applications.

Specifications

|                   |               |
|-------------------|---------------|
| Cap               | T8            |
| EAN               | 8425998040067 |
| Country of origin | India         |
| Weight (kg)       | 0,005         |
| Type of lamp      | Fluorescent   |
