Description

The Zenit Black DC Fan is an excellent complement to any space, providing a cool and comfortable environment with its powerful performance and advanced functionalities. With an elegant and modern design, this fan stands out for both its aesthetics and its energy efficiency and its ability to customize the cooling experience. With a power of 72w, this fan is capable of generating a constant and powerful air flow, keeping the environment cool even on the hottest days. Its 3 deployable blades guarantee uniform air distribution, avoiding annoying drafts or temperature imbalances. In addition, its ability to generate 7200lm of luminosity makes it a versatile option for any space, illuminating efficiently and elegantly. With 6 different speeds, this fan allows you to adjust the intensity of the airflow according to individual preferences, providing precise control over the comfort level. Additionally, its ability to adjust the light temperature between 3000k, 4500k and 6000k ensures customizable lighting that adapts to any environment. The Zenit Black DC Fan goes beyond the basic functionalities, incorporating a remote that allows you to control all its features from the comfort of a sofa or chair. Its integrated timer allows fan operation to be programmed according to individual needs, maximizing energy efficiency and comfort. In addition, its memory function ensures that configuration preferences are maintained even after turning the device off and on.

Specifications

Energy classification	F
Colour	Black
EAN	8435684338422
Engine	DC
Diameter (cm)	107
