

Product sheet

Pack of 3 ceramic connection strips. 3 poles 16mm² 30A

Brand: GSC

Reference: GSC 001000728

30A Ceramic Connection Strip - Robust Solution for Electrical Installations

We introduce the highly durable **ceramic** connection strip, designed specifically for handle an intensity of up to **30A**. This electrical connection solution combines superior performance with safety and stability, thanks to its heat-resistant ceramic composition and its ability to support connection areas of up to **16mm²**.

- **Material:** Ceramic, ideal for high temperature environments, guaranteeing durability and resistance.
- **Intensity:** Supports up to 30A, suitable for high demand applications .
- **Connection Area:** 16mm², offering ample capacity for secure connections.
- **Dimensions:** Compact, with measurements of 50x25x20mm, facilitating its installation in small spaces.
- **Pack:** Available in packages of 3 units, allowing flexibility in various projects.

Description

The ceramic connection strip is an exceptional choice for professionals looking for a reliable and safe solution for their electrical installations. Its heat-resistant design not only ensures long life, but also offers safe and efficient installation.

- **High Heat Resistance:** Ideal for applications that require exceptional durability in the face of high temperatures.

- **Durability:** Ceramic construction offers a robust solution against corrosion and wear.
- **Easy Installation:** Its compact design and proportionate dimensions make it easy to integrate into any electrical system.
- **Versatility:** Suitable for a wide range of electrical applications, from lighting to systems complex power supplies.
- **Aesthetics and Functionality:** Its natural color and discreet design integrate perfectly into any installation.

Specifications

Rated current (A)	30
Colour	White
EAN	8436021947284
Material	Ceramic
Measures	50x25x20mm
Weight (kg)	1,813
Reference	STK 001000728
Cable cross-section (mm²)	16
