Roll 100M Flexible Cable (1x2.5mm) Black

Brand: GSC

Reference: GSC 003902948

The **H07Z1-K** Flexible Cable Roll of **1x2.5mm** in black is the ideal choice for electrical installations in buildings and civil engineering projects. With an insulation of **0.7KV** and complying with the **CPR Cca-s1b, d1, a1** classification for reaction to fire, it offers safety and durability in every application. Manufactured with **copper conductive material**, this cable ensures excellent conductivity and flexibility, making it easy to handle and install. Presented in a practical roll of **100 meters** with shrink-wrapped packaging, it stays organized and protected, ready for use.

- **Maximum Security:** CPR classification for optimal fire protection.
- **Superior Conductivity:** Copper core for effective electrical transmission.
- **Flexible and Manageable:** Facilitates installation in various configurations.
- **Versatile Applications:** Ideal for use in buildings and civil engineering works.
- **Convenient Packaging :** 100M roll for easy storage and use.

Description

The **H07Z1-K** Flexible Cable Roll of **1x2.5mm** in black represents a reliable, high-quality solution for a wide range of electrical wiring needs. Its flexible and resistant design allows easy installation in different environments, ensuring optimal electrical performance and long durability. The fire reaction classification **Cca-s1b, d1, a1** guarantees that the cable contributes to the safety of the environment, limiting the spread of fire and minimizing the emission of smoke and toxic substances in the event of a fire.

This cable is an efficient solution for both professional installers and DIY projects, offering excellent value for money. Its copper core guarantees low electrical resistance, which translates into less energy loss and greater efficiency in the transmission of electricity.

Specifications

Colour	Black
EAN	8429642131064
Halogen-free	Yes
Material	Copper
Cable cross-section (mm²)	2.5
