Roll 100M Flexible Cable (1x2.5mm) Green/Yellow

Brand: GSC

Reference: GSC 003902949

The **H07Z1-K** Flexible Cable Roll of **1x2.5mm** in green/yellow color is an essential wiring solution to ensure safety and compliance in electrical installations , specially designed for grounding in buildings and civil engineering projects. With **0.7KV** insulation and **CPR Cca-s1b, d1, a1** classification for reaction to fire, this cable meets the highest safety standards. Manufactured with **copper conductive material**, it offers optimal conductivity and flexibility, facilitating its installation. Packaged in a roll of **100 meters** and with shrink-wrapped packaging, it provides great storage and handling convenience.

- **Distinctive Color Green/Yellow:** Easy identification for ground connections.
- **High Safety:** Meets CPR classification for fire protection.
- **Efficient Conductivity:** effective electrical transmission.
- **Flexible for Installation:** Ideal for various configurations and applications.
- **Practical Packaging:** 100M roll, facilitating material management.

Description

The **H07Z1-K** Flexible Cable Roll of **1x2.5mm** in green/yellow is essential for any wiring system that requires clear identification and connection security to Earth. This type of cable is crucial in preventing electrical accidents, offering a safe path for current in the event of a fault. Its **0.7KV** insulation capacity and **CPR Cca-s1b, d1, a1** rating ensure that the cable can withstand extreme conditions, maintaining electrical system integrity and safety. of people.

In addition to its safety and reliability, this cable stands out for its flexibility, which simplifies its installation in confined spaces or where extensive manipulation is required. The use of copper as a conductive material ensures excellent conductivity and superior energy efficiency, essential characteristics for any modern electrical installation.

Specifications

Colour	Green
EAN	8429642131101
Halogen-free	Yes
Material	Copper
Weight (kg)	0
Cable cross-section (mm²)	2.5
