Roll 50M Hose (2x1.0mm) White

Brand: GSC

Reference: GSC 101005005

The 50 meter VV-F electrical hose with a section of **2x1.0mm²** in white offers a reliable and safe solution for electrical installation in various environments, especially designed to meet the highest safety and quality standards. This product is ideal for general applications on construction sites, ensuring not only efficient installation but also the safety required in residential and commercial projects.

- **Type:** VV Hose -F, adaptable to a wide range of electrical installations.
- **Section:** 2x1.0mm², suitable for light and medium load installations.
- **Insulation:** Up to 0.5KV, providing protection and safety in use.
- **Color:** White, perfect for aesthetic and discreet integration into any decoration. li>
- **Conductive material:** Copper, offering excellent conductivity and long-term reliability.
- **CPR Classification:** Reaction to fire ECA, complying with essential regulations for fire protection.
- **Length:** 50M roll, providing a generous length for projects of various scales.

Description

The **VV-F Electrical Hose Roll (2x1.0mm²) in White** is a professional choice for those looking for safety and efficiency in their electrical installations. This 50 meter product has been designed to meet the rigorous demands of construction and renovation projects, offering a reliable and durable solution for electrical power distribution.

With a **2x1 section. 0mm²**This hose is perfect for a wide range of applications, from lighting to low-power device connections, ensuring an efficient and safe installation. Insulation up to **0.5KV** protects against potential damage and ensures uninterrupted operation, while the copper conductive material provides excellent conductivity and resistance over time.

The VV-F hose has been classified under the **CPR (Reaction to Fire ECA)** regulations, highlighting its commitment to safety by minimizing risks in the event of fire. This makes it ideal for use in residential, commercial buildings and other environments that require construction materials with low flame spread characteristics.

Its white color and flexibility facilitate a discreet and aesthetically pleasing installation, allowing a harmonious integration with various surfaces and interior decorations. The **50 meter** single roll packaging provides enough length to complete even the most demanding projects without the need for multiple joints or connections, ensuring a clean, professional finish.

Specifications

Colour	White
EAN	8429642037038
Length	50 metros
Cable cross-section (mm²)	2x1
