Panel LED Borma surface 40W 6000K black 60x60cm

Brand: GSC

Reference: GSC 203405026

The **Borma 40W Surface LED Panel** in black is a superior lighting solution designed for those who value both functionality and style. With an impressive luminous power and a cold light temperature of 6000K, this panel ensures efficient and quality lighting. Its surface-mounted installation eliminates the need to drill holes, facilitating clean and simple assembly in any interior space.

- **40W power** that offers a luminous flux of **4200Lm** with diffuser and **4650Lm** without diffuser.
- Wide opening angle of **120°** for uniform and extensive lighting.
- Color temperature of **6000K**, providing a cold light that improves concentration and energy in the environment.
- Long lifespan of **30,000 hours**, minimizing the need for frequent maintenance.
- Construction in **aluminum + PS**, which combines durability and modern aesthetics in black

Description

The **Borma Surface LED Panel** emerges as a modern and efficient lighting option, ideal for updating spaces with quality light and a contemporary style. This 40W panel is not only powerful, with a luminous flux adapted for large spaces, but it is also versatile, allowing for hassle-free installation on any type of ceiling thanks to its surface-mount design.

In addition to its impressive lighting performance, the Borma panel is designed to offer a comfortable

visual experience, with a **UGR of 22** and an **SDCM of less than 6**, guaranteeing optimal light distribution smooth and uniform without glare. Its quick turn-on capability and instantaneous full light output make it an ideal choice for areas requiring immediate lighting.

Highlighted Features:

- **Operating Temperature from -20°C to +50°C**, ensuring reliability under various environmental conditions.
- **CRI (Ra) of ≥80**, which provides natural and accurate color reproduction, essential in spaces where the quality of light impacts the atmosphere and functionality.
- **Power factor (PF) of 0.95**, reflecting its high energy efficiency and load reduction in the electrical system.
- **IP20 and IK05 protection**, offering resistance to solid objects and an adequate level of protection against impacts.
- **Mercury-free (Hg 0.0)** and with a durability of **100,000 On/Off cycles**, underlining its commitment to sustainability and longevity.

Specifications

Colour	Black
EAN	8433373076365
Material	AL + PS
Weight (kg)	1,804
Battery included	No
Protection	IP20
Nominal voltage (V)	230V
Colour temperature	6000
