Crosshead for tiling 8.0 mm 100 units

Brand: COFAN

Reference: COF 09101080

Highly resistant crossheads for tiling, reinforced and designed to support heavy slabs. They are essential to guarantee precision and durability in your tiling. They are made of high quality polypropylene (PP). The highly resistant material of these crossheads ensures their robustness and prevents them from adhering to the adhesives used, providing a smooth and effective application. In addition, these crossheads guarantee a uniform space between the tiles, avoiding displacements during the setting of the adhesive and achieving a polished and precise finish. Contributing to the durability of the tiling, these crossheads ensure a uniform joint, allowing a better distribution of the stresses to which the tiling is subjected. This helps prevent cracks and peeling over time. The measurements of the crossheads can be: 1 mm, 1.5 mm, 2 mm, 2.5 mm, 3 mm, 4 mm, 5 mm, 6 mm, 8 mm and 10 mm, each with different packaging. : 300, 250, 150, 100 or 50 units of crossheads, offering a complete and durable solution for projects of any size.

- Measurement: 8 mm
- Pack: 100 units

Description

Cross for tiling 8.0 mm 100 units

The 8.0 mm crosses are ideal for tiling that requires strength and durability. Made of high quality polypropylene, these crossheads are robust and prevent adhesives from adhering, facilitating a smooth and effective application. Their reinforced design makes them perfect for supporting heavy slabs, guaranteeing precision in the placement of tiles.

- Measurement: 8 mm
- Pack: 100 units
- Material: High quality polypropylene
- Resistant and durable
- They prevent movement during the setting of the adhesive
- They guarantee a uniform space between the tiles
- They prevent cracks and detachments over time
- Available in different sizes and packaging
