Product sheet

Bi-material handle chisel l-20 mm

Brand: COFAN

Reference: COF 09514339

Chisel with bi-material handle and resharpenable cutting blade, suitable for use in carpentry work, whether with thick or thin wood. Chisels with bi-material handles are popular among carpenters and craftsmen due to their ergonomics and efficiency in woodworking. It has a metal rear strike plate and a very comfortable ergonomic handle that is adjustable to the hand, which provides a non-slip grip. Its blade is made of chrome-vanadium steel and is very resistant to heat. The blade and handle are heat fused for added strength. Cutting width measurements from 6 mm to 35 mm.

- Cutting Width: 20 mm

Description

L-20 mm bi-material handle chisel

The L-20 mm bi-material handle chisel is an ideal tool for carpentry work, both on thick and thin wood. Its ergonomic, adjustable handle provides a non-slip grip, while its chrome-vanadium steel blade is heat-resistant and resharpenable. The metal rear striking plate guarantees durability and resistance, and the thermal fusion between the blade and the handle increases its robustness. With a cutting width of 20 mm, this chisel is versatile and precise, perfect for any carpentry project.

- Chisel with bi-material handle and resharpenable cutting blade
- Suitable for use in carpentry work with thick or thin wood
- Metal back strike plate for greater durability
- Adjustable ergonomic handle for a non-slip grip
- Blade Heat-resistant chrome-vanadium steel
- Thermal fusion between blade and handle for greater resistance
