Product sheet

Bi-material handle chisel l-32 mm

Brand: COFAN

Reference: COF 09514343

Chisel with bi-material handle and resharpenable cutting blade, suitable for use in carpentry work, whether with thick or thin wood. Chisels with bi-material handles are popular among carpenters and craftsmen due to their ergonomics and efficiency in woodworking. It has a metal rear strike plate and a very comfortable ergonomic handle that is adjustable to the hand, which provides a non-slip grip. Its blade is made of chrome-vanadium steel and is very resistant to heat. The blade and handle are heat fused for added strength. Cutting width measurements from 6 mm to 35 mm.

- Cutting Width: 32 mm

Description

L-32 mm bi-material handle chisel

The L-32 mm bi-material handle chisel is an ideal tool for carpentry work, both on thick and thin wood. Its ergonomic bi-material handle provides a non-slip and comfortable grip, allowing precise and effective work. The resharpenable cutting blade, made of chrome-vanadium steel, is heat resistant and has a metal rear strike plate for greater durability. The blade and handle are thermally fused, guaranteeing greater resistance. With a cutting width of 32 mm, this chisel is a versatile, high-quality tool for any carpentry project.
