Description

Adjustable Wrench with 1000 V Insulated Handles

- Length 260 mm. and a maximum opening of 35 mm. This key stands out for its practicality and versatility. It has a millimeter scale that makes it easy to use and a 15° working angle that will allow you to access small areas with ease.
- The head of this wrench is made of chrome vanadium steel, which guarantees higher levels of hardness and resistance, thus ensuring its durability over time. Its handles are insulated and have 1,000 V VDE certification, giving you the safety you need in each task.
- The ergonomic handle made of TPR, with a plastic base and rubberized grip, adapts perfectly to the shape of your hand, allowing you to apply maximum force comfortably.
- The double "T" design of the handles provides robustness, resistance and ergonomics, while its perfect grinding guarantees a smooth and precise fit, without clearances. In addition, the screw does not protrude, which makes it easier to use in narrow areas.
- Its thin and long mouth gives you better access and grip of the nut, simplifying your work.
- This adjustable wrench, Also known as a wrench or knurled wrench, it is the ideal complement for any DIY or professional task you want to perform. Take advantage of all its features and enjoy the quality of this adjustable wrench.
