Description

VATTON Screw Extractor Set 8 pcs - The Ultimate Solution for Your Projects

The VATTON Screw Extractor Set is a must-have for any toolbox. Designed to offer an effective and simple solution, this extractor set is ideal for removing broken screws and bolts with total ease. Made from GCR15 carbon steel, these extractors not only guarantee exceptional durability, but also ensure optimal performance with every use.

One of the most outstanding features of this set is its versatility. With a range of use spanning from 2.5 to 36 mm, the extractors adapt to a wide variety of screw sizes, making them an indispensable tool for any project, whether at home or in the workshop. In addition, its design with anti-clockwise conical threads allows for a firm and secure grip, facilitating extraction without damaging the surrounding

surfaces.

The heat treatment applied to VATTON screw extractors provides greater hardness, ensuring that each piece withstands wear and intensive use. The square profile shank is compatible with T-handles or wrenches, offering greater comfort and control during the extraction process.

This set of 8 extractors comes presented in a practical case with a hanger, making it easy to store and transport. This way, you will always have the right tool at hand for every situation. The quality and design of VATTON screw extractors ensure that you can tackle any task with confidence and efficiency.

In short, the VATTON screw extractor is the perfect choice for those looking for a reliable, high-performance tool. Its combination of quality materials, smart design and ease of use make it an indispensable ally for any DIY enthusiast or professional in the sector.
