## Description

**ONLEX 4A White Bipolar Switch: Control and Safety in a Compact Design**

The **ONLEX 4A White Bipolar Switch** is the perfect choice for those looking for an efficient and safe solution for controlling table lamps. This switch has been designed with convenience and functionality in mind, allowing for direct installation on the power cable. Its flat and compact design makes it an ideal choice for small spaces, where every centimetre counts.

With a **rated voltage of 250V and 4A**, this switch guarantees optimal and safe performance, suitable for most table lamps available on the market. Its **IP20 protection rating** ensures that the switch is protected from dust and accidental contact, offering peace of mind in daily use.

Made from **rigid thermoplastic**, the ONLEX switch is not only durable, but also features a sleek finish that blends easily into any décor. Its dimensions of **25 x 15 x 60 mm** make it discreet and easy to handle, without compromising on functionality. The rocker switch provides simple and intuitive operation, allowing lamps to be switched on and off with a simple movement.

The **ONLEX 4A White Bipolar Switch** comes in practical shrink-wrapped packaging, ensuring that it arrives in perfect condition and ready for installation. This detail not only protects the product, but also makes it easy to store and transport.

In short, the **ONLEX 4A White Bipolar Switch** is a practical and safe solution for controlling table lamps. Its compact design, along with its easy installation and handling, make it an ideal choice for those looking for functionality and style in a single product. With the ONLEX switch, you will enjoy efficient and safe control of your lamps, improving the comfort and ambiance of your home.
