Description

ONLEX 4A Flat Black White Bipolar Switch: Innovation and Safety in a Single Product

The **ONLEX bipolar switch** is the ideal choice for those looking for a practical and safe solution for controlling table lamps. This device stands out for its flat and elegant design, which blends effortlessly into any environment, whether at home or in the office. Its **rigid thermoplastic** manufacture not only gives it a modern look, but also guarantees exceptional durability and resistance, ensuring reliable performance over time.

With a **rated voltage of 250V and 4A**, this switch is designed to offer efficient and safe control of your electrical devices. Its **IP20 protection rating** makes it suitable for indoor use, protecting against dust and accidental contact. Installation is simple and straightforward, as it easily connects to the power cable, allowing for quick and hassle-free integration.

One of the most notable features of the ONLEX switch is its **rocker switch**, which provides easy and

intuitive control. This functionality allows lamps to be turned on and off with a simple movement, improving the user experience and providing convenience in everyday life. In addition, its compact dimensions of **25 x 15 x 60 mm** make it discreet and easy to handle, without taking up unnecessary space.

The switch is presented in **shrink wrap packaging**, ensuring that it arrives in perfect condition and ready for use. This detail not only protects the product, but also makes it easy to store and transport. In short, the ONLEX bipolar switch combines design, functionality and safety, becoming a reliable option for those looking for quality and efficiency in the control of their electrical devices.

Specifications

High	9, 00
Rated current (A)	4
Width	9, 00
Colour	Black
EAN	8425160278168
Manufacturer	ALFADYSER
Long	14, 00
Material	ABS
Measures	2, 5x1, 5x6cm
Weight (kg)	023, 0
Battery included	No
Depth	#iREF!
Protection	IP20
Nominal voltage (V)	250V
