Description

JAVA Wall-Mounted Sink Mixer Tap: Elegance and Functionality in Your Kitchen

The **JAVA Wall-Mounted Sink Mixer Tap** is the perfect choice for those looking for a balance between modern design and functionality in their kitchen. This tap stands out for its brass body with an elegant chrome finish, which not only adds a touch of sophistication, but also guarantees long-lasting durability. Its design is complemented by a flexible black rubber spout, which adds a touch of versatility and contemporary style to any space.

One of the most outstanding features of this mixer tap is its **40mm ceramic cartridge**. This component is essential to ensure smooth and precise handling of the water flow, resulting in a comfortable and effortless user experience. In addition, the ceramic cartridge is known for its wear

resistance, which prolongs the life of the faucet.

The **built-in Hidrobis atomizer** is another significant advantage of this product. This atomizer not only improves water efficiency, but also contributes to a more sustainable use of the resource, which is ideal for those looking to reduce their ecological footprint. The **lever with a soft handling system** allows for precise control of temperature and flow rate, making every use a pleasant experience.

The installation of the JAVA Wall-Mounted Sink Mixer is simple thanks to its wall-mounted design with nuts, which makes it easy to assemble without the need for complicated tools. This faucet is an ideal choice for those who value quality and style in their kitchen, offering a **3-year warranty** that supports its excellent workmanship and durability.

- Brass body with chrome finish
- 40mm ceramic cartridge
- Hidrobis built-in atomizer
- Lever with soft handling system
- Flexible black rubber spout
- Easy wall installation with nuts
- 3-year warranty
