Description

JAVA Wall-Mounted Sink Mixer: Innovation and Style in Your Kitchen The JAVA Wall-Mounted Sink Mixer is the perfect choice for those looking to combine modern design with functionality in their kitchen. This wall-mounted tap stands out for its brass body with an elegant chrome finish, which not only adds a touch of sophistication, but also guarantees exceptional durability. Its design is intended to blend harmoniously into any kitchen style, offering a practical and aesthetic solution. One of the most notable features of this mixer is its flexible rubber spout in black. This element not only adds an attractive visual contrast, but also provides flexibility that makes it easier to wash large utensils and clean the sink. The flexibility of the spout allows the water flow to be directed precisely, improving efficiency in daily kitchen tasks. The 40mm ceramic cartridge is another key component that ensures smooth and precise water handling. This ceramic cartridge system is known for its wear resistance, which prolongs the life of the tap and reduces the need for maintenance. In addition, the built-in Hidrobis atomizer optimizes the water flow, ensuring efficient and sustainable use of the resource. Installation of the JAVA Wall-Mounted Sink Mixer is quick and easy thanks to its wall-mounted design with nuts. This installation

system allows the tap to be firmly fixed to the wall, saving space on the countertop and providing more convenient access to the sink. The smooth-operated lever makes it easy to control the water flow and temperature, offering a comfortable and effortless user experience. With a 3-year warranty, this single-lever mixer offers peace of mind and confidence in its quality and performance.

Specifications

High	10, 00
