Fixed infrared sensor 180° IP44 outdoor ONLEX

Brand: ONLEX

Reference: ALFA 23710

ONLEX 180° Fixed Infrared Sensor IP44 Outdoor

The Onlex motion sensor is ideal for accurate outdoor detection. With a lightweight and easy-to-install design, it offers a 180° detection angle and a range of up to 12 meters. Its delay time and sensitivity are adjustable, allowing you to customize its operation according to specific needs. It works directly at 230V, guaranteeing efficient and reliable performance.

- Detection angle: 180°
- Range: 12 meters
- Adjustable delay time
- Adjustable sensitivity
- Protection degree: IP44
- Use: Outdoor
- Voltage: 230V
- Lightweight design and easy installation

Description

ONLEX 180° Fixed Infrared Motion Sensor IP44 for Outdoors

The **Onlex motion sensor** is the perfect solution for those seeking security and efficiency in outdoor motion detection. Designed with a focus on accuracy and ease of use, this sensor stands out for its **180° detection angle**, ensuring wide and effective coverage. With a range of up to 12 meters, it is ideal for protecting large areas such as gardens, patios or entrances.

One of the most outstanding features of this sensor is its **adjustability**. Both the delay time and the sensitivity can be configured according to the specific needs of each user. This allows its operation to be customized to suit different environments and conditions, ensuring that the sensor responds optimally

to any situation.

The **IP44 protection rating** ensures that the sensor is resistant to inclement weather, making it perfect for outdoor use. Whether in the rain or dusty conditions, the Onlex sensor maintains its performance without compromising its durability. In addition, its lightweight design and easy installation allow anyone to mount it without complications, saving time and effort.

Running directly on **230V**, this sensor guarantees efficient and reliable performance, eliminating the need for additional transformers or adapters. This not only simplifies its installation, but also ensures optimal energy consumption, contributing to sustainability and savings on the electricity bill.

In short, the **Onlex motion sensor** combines advanced technology with a practical design, offering an effective security solution for any outdoor space. Its adjustability, along with its strength and ease of use, make it an ideal choice for those looking to protect their home or business reliably and efficiently.

Specifications

Frequency	50/60
High	00, 12
Width	9, 00
Opening angle	180
Colour	White
EAN	8425160237103
Manufacturer	ALFADYSER
Long	7, 00
Material	ABS
Weight (kg)	0, 125
Depth	#iREF!
Protection	IP44
Nominal voltage (V)	230V
