ONLEX 360° surface infrared sensor

Brand: ONLEX

Reference: ALFA 23711

ONLEX 360° Surface Infrared Sensor

The Onlex Motion Sensor offers precise detection with infrared technology, ideal for ceiling or wall installation. Its lightweight and easy-to-install design makes it perfect for any space. With a 360° detection angle and a range of up to 12 meters, it guarantees complete coverage. In addition, it allows you to adjust the delay time and sensitivity to adapt to your specific needs.

- Detection angle: 360°
- Range: 12 meters
- Adjustable delay time
- Adjustable sensitivity
- Ceiling or wall installation
- Operates at 230V
- Lightweight design

Description

ONLEX 360° Surface Infrared Sensor

The **Onlex Motion Sensor** is the perfect solution for those seeking security and efficiency in their spaces. With its advanced **infrared technology**, this sensor guarantees precise detection, ideal for any environment, whether at home or in the workplace. Its versatile design allows for **ceiling or wall installation**, adapting to the specific needs of each user.

One of the most outstanding features of the Onlex Sensor is its **360° detection angle**, which ensures complete coverage of the area, eliminating blind spots and providing total peace of mind. In addition, its **range of up to 12 meters** makes it ideal for large spaces, ensuring that no movement goes unnoticed.

The Onlex Infrared Sensor is not only efficient, but also customizable. It offers the possibility of **adjusting the delay time**, allowing the user to decide how long the sensor should remain active after detecting movement. Likewise, its **adjustable sensitivity** allows it to adapt to different environments, ensuring that it works optimally in any situation.

This sensor operates at **230V**, making it compatible with most standard electrical installations. Its **lightweight design** makes installation easy, allowing anyone to place it without complications. In addition, its discreet aesthetics blend easily into any decor, without drawing attention to itself.

In short, the **ONLEX 360º Surface Infrared Sensor** is a reliable and efficient option to improve the security and comfort of any space. With its advanced technology and customizable features, it offers a complete solution for motion detection, adapting to the specific needs of each user.

Specifications

Frequency	50/60
High	9, 00
Width	6, 00
Opening angle	360
Colour	White
EAN	8425160237110
Manufacturer	ALFADYSER
Long	9, 00
Material	ABS
Weight (kg)	0, 132
Depth	#iREF!
Nominal voltage (V)	230V
